**HUMAN FACTORS ENGINEERING OF
SOFTWARE USER INTERFACES**

PART 3: INTERACTION TECHNIQUES

Table of Contents

1	INTRODUCTION	121
2	SCOPE	122
3	NORMATIVE REFERENCES	123
4	DEFINITIONS	124
	4.1 Interactive Technique Definitions	124
	4.2 Window Definitions	144
5	CONFORMANCE	149
6	COMMAND DIALOGS	149
	Scope	149
	Appropriateness of command dialogs.....	150
	Recommendations.....	150
	6.1 Structure and syntax	150
	6.2 Command representation	154
	6.3 Input and output considerations	157
	6.4 Feedback and help	159
	ISO Clause Disposition Table.....	162
7	VISUALLY DISPLAYED MENUS	163
	Selection Criteria	164
	Recommendations.....	164
	7.1 Menu structure	164
	7.2 Menu navigation	168

7.3 Option selection and execution.....	171
7.4 Menu presentation.....	180
7.5. Menu customization	191
ISO Clause Disposition Table.....	192
8 DIALOG BOXES AND FORM FILLING DIALOGS	195
8.1 Selection Criteria	195
8.2 General Guidelines	195
8.3 Layout.....	197
8.4 Labels.....	198
8.5 Visual Cues in Fields and Controls	202
8.6 Navigation	204
8.7 Navigation by Tab Keys and Scrolling	205
8.8 Input Focus and Cursors	206
8.9 General Input Considerations	209
8.10 Default Values.....	210
8.11 Default Actions for Controls.....	212
8.12 Choice of Controls	215
8.13 Alphanumeric Text Entry.....	222
8.14 Choice Entries.....	224
8.15 List Based Controls for Choice Entries	225
8.16 Tab Controls	230
8.17 Scroll Bars	232
8.18 Pushbuttons and tool palettes.....	235
8.19 User Control.....	237
8.20 Validation criteria	240

8.21 Feedback.....	240
8.22 Forms and Dialog Boxes	241
ISO Clause Disposition Table.....	244
9 DIRECT MANIPULATION DIALOGS	250
9.1 Scope.....	250
9.2 Metaphors	250
9.3 Appearance of objects used in direct manipulation	251
9.4 Feedback.....	253
9.5 Input devices	256
9.6 Manipulation of objects	257
9.7 Pointing and selecting.....	259
9.8 Dragging	263
9.9 Sizing of Objects	265
9.10 Rotating	267
9.11 Pointing and selecting text.....	267
9.12 Sizing of Text.....	268
9.13 Pointing and selecting.....	268
9.14 Additional recommendations for direct manipulation of control icons.....	269
ISO Clause Disposition Table.....	272
10 WINDOWS AND WINDOW INTERACTIONS	274
Recommendations.....	275
10.1 General	275
10.2 Selection of windowing format	277
10.3 Window size and location.....	277
10.4 Visual appearance of window elements	278

10.5 General window-control operations.....	279
10.6 Creating Windows	281
10.7 Removing Windows.....	282
10.8 Iconifying and Restoring Windows.....	283
10.9 Assigning input focus to a window.....	284
10.10 Sizing of Windows	285
10.11 Movement of Windows.....	287
10.12 Operations on window contents	288
10.13 Operations on window groups.....	289
10.14 Multiple Document Interface (MDI) Windows.....	289
10.15 Designing to Support Task Performance	291
ISO Clause Disposition Table.....	293
11 USER GUIDANCE	296
Scope	296
Recommendations.....	296
11.1 Common guidance.....	296
11.2 Phrasing of user guidance.....	298
11.3 Prompts	300
11.4 Feedback.....	302
11.5 Status Information.....	305
11.6 Error management	307
11.7 On-line Help	314
ISO Clause Disposition Table.....	328
APPENDIX A: TECHNICAL REFERENCES	331
Command Dialogs Section References	331

MENU DIALOGS SECTION REFERENCES	333
Dialog Boxes and Form-filling Section References.....	337
Direct Manipulation Section References	337
Window Section References.....	339
User Guidance Section References.....	340
