Contents

Following each paper title are the original year of publication and page numbers.

Introduction

Chapter 1: Auditory Warnings

Introduction

Barzegar, R., & Wogalter, M. S. Intended Carefulness Ratings for Voiced Warning Statements 2000, pp. 3.686–3.689

Chapter 2: Spatial Auditory Displays

Introduction

Folds, D. J., & Gerth, J. M. Auditory Monitoring of Up to Eight Simultaneous Sources 1994, pp. 505–509

Chapter 3: Speech

Introduction

Chapter 4: Speech Recognition

Introduction

Schurick, J. M. Efficiency of Limited Vocabulary Speech Recognition for Data Entry Tasks 1986, pp. 931–934
Chapter 5: Speech Synthesis

Introduction
Pisoni, D. B., & Nusbaum, H. C.
Smither, J. A. The Processing of Synthetic Speech by Older and Younger Adults 1992, pp. 190–192

Chapter 6: Noise

Introduction

Chapter 7: Hearing Protection

Introduction
DeJoy, D. M. Behavioral-Diagnostic Analysis of Worker Compliance with Hearing Protectors 1986, pp. 1433–1437

Abstracts

Auditory Warnings

Spatial Auditory Displays
Strybel, T. Z. Perception of Real and Simulated Motion in the Auditory Modality 1988, pp. 76–80

Speech

Spatial Auditory Displays
Strybel, T. Z. Perception of Real and Simulated Motion in the Auditory Modality 1988, pp. 76–80

Speech

Spatial Auditory Displays
Strybel, T. Z. Perception of Real and Simulated Motion in the Auditory Modality 1988, pp. 76–80
Speech Recognition
Aldridge, L., & Lansdown, T. C. Driver Preferences for Speech-Based Interaction with In-Vehicle Systems 1999, pp. 977–981
Noyes, J. M., Baber, C., & Leggatt, A. P. Automatic Speech Recognition, Noise, and Workload 2000, pp. 3.762–3.765

Speech Synthesis
Greene, B. G. Perception of Synthetic Speech by Nonnative Speakers of English 1986, 1340–1343
Ayres, T. J. The Role of Temporal Parameters in Recall of Synthetic Speech 1987, pp. 966–968

Noise

Hearing Protection
Park, M. Y., & Casali, J. G. A Laboratory Simulation of Selected In-Field Influences on Hearing Protector Performance 1989, pp. 946–950
Mauney, D. W. Psychophysical and Physical Techniques for Measuring the Attenuation of Hearing Protectors in the Field 1993, pp. 999–1003
