

HUMAN FACTORS AND ERGONOMICS SOCIETY

HFES FELLOWS PROFILE

Name: Daryle Gardner-Bonneau

Short biography:

I have had a career of over 35 years, spanning academia, industry, and consulting positions. During the last 10 years, much of my work has been in the area of technical standards development. I am heavily involved in the work of ISO/TC159 - Ergonomics, and Chair its Technical Advisory Group (TAG), as well as two of its subcommittee TAGs. I have also been involved in medical device standardization work with the Association for the Advancement of Medical Instrumentation (AAMI), serving on its Human Engineering, Alarms, and Home Care standardization committees. Over the course of my career, I have been involved in human factors work in speech technology, aerospace, health care and medical devices, accessibility, and telecommunications.

Advice for students: Learn about what standards apply in your chosen area, and get involved in standardization work.

Specialty Area(s): Research & Development; Applications & Practice

Field of Interest(s): Aging; Communications; Healthcare; Human Error; Perception; Task Analysis; Workload

Geographic Location: Portage, Michigan

Fellow status: Emeritus

Year inducted as a fellow: 2009
